

Cloud Engineer (m/f/d)

Springtime Technologies is growing, and we're looking for a Cloud Engineer (m/w/d) to join our expanding IT Infrastructure team.

We're seeking someone with strong expertise in cloud architecture and operations, combined with a solid understanding of security and scalability in enterprise environments.

The ideal candidate brings hands-on experience in designing and managing cloud-based infrastructures, automating deployments, and ensuring high availability across distributed systems.

You're comfortable working with modern cloud platforms, infrastructure-as-code, and monitoring tools and you take ownership of keeping environments stable, secure, and future-proof.

Your Responsibilities

- Design, deploy and manage the cloud infrastructure for our enterprise clients, ensuring optimal performance, efficient resource utilization and scalability.
- Implement the integration of cloud technologies with on-premise systems, providing hybrid and multi-cloud solutions.
- Collaborate with cross-functional teams to define requirements and provide innovative cloud-based solutions.
- Monitor and maintain cloud environments to ensure high availability.
- Troubleshoot and resolve infrastructure-related issues in a timely manner.
- Implement disaster recovery and backup strategies in the cloud.

Your Profile

About Springtime Technologies

At Springtime Technologies, we're redefining how global enterprises handle finance. As a fast-growing leader in AI-powered SaaS, we automate the Accounts Payable process—turning complex invoice and payment workflows into seamless, intelligent experiences. Our technology empowers 200,000+ users across 75+ countries, helping companies to streamline AP workflows with speed and precision.

Founded in 2004 by AI pioneers, Springtime operates from Austria, Germany, and the Philippines, driving the future of AI-driven financial automation.

The minimum gross salary for this position is €3.954 per month, as determined by the IT Collective Agreement. The actual salary will be based on your qualifications and experience.
